

Beginning your Sustained Investigation (SI)

AP

You have a lot of resources at your fingertips. It might seem like too many. You have created three pieces that stemmed from an original question of inquiry. Now it is time to determine what your focus will be. For **FRIDAY**, please have:

Plan A and Plan B. Each should use a page or two (facing pages might be good??) to show:

1. Your central idea (this could be an Essential Question) and how you will start, as well as the direction in which it might go.
2. A Mind Map
3. At least 2 sketches
4. At least 2 artistic inspirations, with photos of their work and an explanation of why you chose them.

See [HERE](#) for an example. This is a google presentation and slightly different, but you should get the idea.
