What is Hack Club?

Hack Club is a 501(c)(3) nonprofit organization, founded in 2014, with the mission of fostering an empowered generation of coders, leaders, and innovators. "Hacking" is being constructively redefined as a means of creative coding—apps, games, websites etc. Through our global network of student-led computer science clubs, over 100K+ teenagers engage with our programs annually.

All of Hack Club's programs are free and universally accessible. We're supported by GitHub founder Tom Preston-Werner, Dell founder Michael Dell, SpaceX's Gwynne Shotwell, executives at Apple and Microsoft, and many up and coming startups as well.

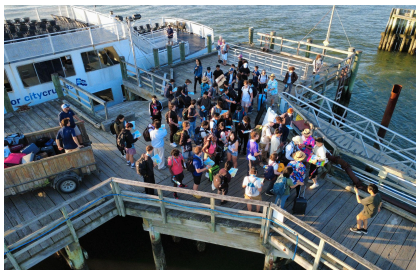

Every year, Hack Club runs a few transformative events for teenagers interested in technology. In the past, we've chartered a train across Canada, ran hackathons in San Francisco & New Delhi, ran a 4-day hackathon on an island, and sent out $50,000 in hardware grants.

Shipwrecked, Boston

What is Haven?

Haven is a *game jam,* organized by students in your city along with adult chaperones! A game jam is a coding event where your child will code a game over the weekend. Haven is happening in 200+ cities worldwide simultaneously this weekend. They will get to take part in a community of 100,000+ high school makers!

Expenses & Meals

Attending Haven will be completely **free** for your child! This includes all necessities for the duration of the event, including meals, snacks and drinks.

Safety Arrangements and Safeguarding

Haven is committed to creating a safe and comfortable environment for students at our events. We have adults for supervision & first aid at all times during the event.

You can read more about how we take care of participants in our safeguarding policy -> hackclub.com/safeguarding-policy.
