Title of Writing is Centered and is Not Larger Than the Text

Indent the first line of the paragraph. Continue from there. You can have a title in the same size font if you want. Please use a plain font: Arial, Times New Roman, Calibri, or similar. The document is set up with 1" margins automatically, so do not change that. To get credit for your vocabulary terms, please underline or **highlight** them in the text of your paragraph. Please do NOT randomly break up the paragraph into mini-paragraphs. Thank you!!!
