# Your Voice, Voluntown's Future

Dear Voluntown Families,

Voluntown Public Schools and the Board of Education have engaged in a Strategic Planning initiative which will focus on developing a five-year plan for the district. Before deciding what the district should do, we want to understand the future our community wants for Voluntown's students.

To gather this information, we are asking you to complete a short survey about what you value most about our school and your hopes for the future.

## YOUR VOICE MATTERS

Please take a few minutes to complete the survey and share your perspective. We are seeking feedback from the entire community and every voice plays a part in the future for our school. You will hear more about our progress in regular updates at the Board meetings and through SchoolMessenger notifications.  Not only are we looking for your voice in this survey, but we believe a united and informed community is what is best for our school and students.

## CLICK HERE FOR THE SURVEY

***Be on the lookout for further information regarding focus group meetings where you will be able to share more details about those hopes and dreams for our school.***

Thank you for your time and participation,

The Strategic Planning Core Team
