

To the Broadway League:

Harassment, discrimination, and abuse in any workplace should be intolerable. However, in the Broadway community, abusers have risen to power. As the “National Trade Association for the Broadway Theatre Industry,” **you have the power to implement a zero tolerance policy for harassment and discrimination with all of your members.**

Allowing Scott Rudin to continue as a member of your League signals to other harassers and abusers that their behavior comes without accountability. It is important that abusers in power be removed and not allowed to produce or operate within our industry. While Scott has signaled that he plans to “step back” from Broadway, this is not enough. Your silence grants him continued access and profits. We are not his colleagues, we are his victims.

We, the undersigned, demand you take a stand against harassment and abuse in our workplaces and remove Scott Rudin immediately from the ranks of your membership. It is one of many steps you can take today to signal to others that this abusive behavior simply will not be tolerated.

Signed,

[\(add your signature here\)](#)
