# HOW DO I VISIT THE COMMUNITY VIRTUAL LIBRARY AND VWEC IN KITELY?

## WE WILL MEET AT THE COOKIE II WELCOME CENTER AND THEN WE WILL TELEPORT TO THE NEW VWEC PAVILION.

Choose one of the following options to start in Kitely:

1. Create a new free account on the Kitely grid OR
2. Use an existing OpenSim Avatar/Account to hypergrid to Kitely

**OPTION 1:** Follow the steps below

Create a free account with Kitely

- Download and install an OpenSim-enabled version of the Firestorm viewer
- Login to Kitely and use the world map to search for Cookie II
- At the Cookie II welcome station, walk to the teleportal for the ANTIQUE PATTERN LIBRARY

NOTE: If you have any difficulties, please check out New Media Arts, Inc.'s written tutorial (with five short videos) (NMA sponsors CVL) or refer to the Kitely article: How to Enter Kitely Virtual Worlds

**OPTION 2:** You can use an existing OpenSim account to search for and hypergrid to Kitely using the URL http://grid.kitely.com:8002. Then search and teleport to Cookie II. At the welcome station you will find a map to teleport directly to the Antique Pattern Library
