

Outreach email to someone that owns a course and coaching for growing your IG and make money with it. [wizzbusiness](#)

Subject line: Your business is good, but it can be better!

Dear, Luka!

I have to admit, you have a wonderful business, thriving against the other competitors. It has a **structure** and a very wide audience.

The testimonials you have, show a lot of credibility which is crucial for any business.

But there is space for **improvement**. A way to even make more money.

IG isn't the best place to make your audience sign up for your coaching.

It is full of other posts.

On the other hand, if you emailed them **everyday**, there is a bigger chance for them to act.

So to help you, I thought I could help you collect their emails.

And then I can help you get more clients in a **short amount of time**.

We can arrange a meeting if you'd like so we could discuss more about how I can help you **escalate your earnings** using my methods.

I'm looking forward to working together and I wish you all the best!

**Best regards,
Claudiu!**
