Origami

The word 'Origami' comes from two Japanese words: Ori, meaning folding, and kami, meaning paper. Origami can be made out of plain, or colorful paper! The piece of paper will often start off as a square. We will be doing a few origami projects, so you may want to prepare by cutting a few sheets of paper into even squares (but not all of them!). Ask a parent for help with scissors if you need to.

A Quick Video

I'll have a video to follow along with later in the week. But here is a video to help you understand origami, and what you can look forward to!
