

AIT Decarbonization Nexus 2025

Inter-University SDG Research Competition

Dates: 11–12 September 2025

Venue: RBB Auditorium, AIT Conference Center, Thailand

Organized by: Office of Sustainable Campus (OSC), AIT

About the Competition

As part of the flagship event AIT Decarbonization Nexus 2025, the Inter-University SDG Research Competition invites university students and research teams to showcase research aligned with the Sustainable Development Goals (SDGs)—with a special focus on decarbonization, climate resilience, circular economy, and nature-based solutions (NbS). This initiative aims to foster action-oriented, impact-driven research that can catalyze climate innovation and institutional sustainability transformations.

Who Can Participate?

- Undergraduate and Postgraduate students
- Research teams from AIT and other universities in Thailand or abroad
- Multidisciplinary groups working on applied sustainability solutions

Submission Requirements

Each team is required to submit:

- A brief abstract (max 300 words) covering:
 - Research objectives
 - Relevant SDG target(s)
 - Real-world relevance to sustainability or net-zero transitions
- Two A2-size printed posters to be displayed at your designated booth.

Deadline for Abstract Submission: 7 September 2025

Awards & Prizes

Award Title	Prize
Outstanding Sustainability Achievement Award	15,000 THB
Creative Solution for a Greener Future	10,000 THB
Excellence in Sustainable Finance Award	7,000 THB

Judging Criteria (Total 100%) for faculty/experts (80%)

- SDG Relevance (20%)—Alignment with specific SDG targets or decarbonization.
- Impact (20%)—Real-world significance and scalability.
- Technical Rigor (20%)—Methodology and research design quality.
- Presentation Skills (20%)—Communication clarity and engagement.
- Overall Impression (20%)—Originality, creativity, and coherence.

Judging Criteria (Total 100%) for guest (20%)

- SDG Relevance 40%
- Learning Experience 30%
- Overall Impression 30%

Support for Participants

- Free accommodation (non-air-conditioned rooms; A/C rooms at nominal cost)
- Meal coupons during the two-day event
- Booth space and display materials provided

Why Join?

- Showcase research with global sustainability relevance.
- Network with peers, faculty, and industry professionals.
- Receive mentorship and feedback from subject experts.
- Get recognized for your work in a high-impact forum

Event Highlights

- Inter-University Hackathon – Hack to Decarbon
- 20+ Sustainability Research & Innovation Booths
- Workshops on ESG, Carbon Markets, Climate Tech, NbS
- Eco-friendly Market & Social Enterprise Stalls
- Panel Discussion & Award Ceremony
