

Activity - Studying Four Pathogens

One of our goals for this unit is to learn more about how common diseases travel and infect human beings. To do that, please do some quick research on the four diseases listed below.

MALARIA - Web MD Reference Page What type of pathogen is this? ☐ Virus ☐ Bacteria ☐ Fungi ☐ Parasite What symptoms does it create in people? How does it transmit to new hosts? How is it treated?	STREP THROAT - Web MD Reference Page What type of pathogen is this? ☐ Virus ☐ Bacteria ☐ Fungi ☐ Parasite What symptoms does it create in people? How does it transmit to new hosts? How is it treated?
ATHLETE'S FOOT - WebMD Reference Page What type of pathogen is this? ☐ Virus ☐ Bacteria ☐ Fungi ☐ Parasite What symptoms does it create in people? How does it transmit to new hosts? How is it treated?	THE FLU - WebMD Reference Page What type of pathogen is this? ☐ Virus ☐ Bacteria ☐ Fungi ☐ Parasite What symptoms does it create in people? How does it transmit to new hosts? How is it treated?
