Tableau Desktop Installation for Student

1. Visit [Tableau for Students program]
2. Click Tableau for Free
3. Enter your personal information, for the **email address section type your USF email address. For example userrname@dons.usfca.edu**

4. After you have done that, you will receive an email from Tableau (check your spam folder if you do not see it). It may take several minutes to days. It should look something like this.

SheerID Verification (On Behalf of Tableau) Wednesday, Jul 10, 9:50 AM

Hi

Please retain this email for your records. You will need the product key and instructions enclosed to install Tableau Desktop and Tableau Prep.

Welcome to Tableau for Students! Your academic license now includes Tableau Desktop and Tableau's newest product, Tableau Prep. Tableau Prep makes it easy for you to confidently and visually clean, shape and model data for quick analysis.

The product key below can be used to activate Tableau Desktop and Tableau Prep on two separate machines, Windows or Mac. This key will expire in one year.

- Download Tableau Desktop
- Download Tableau Prep
- Activate with your product key: **Product key here!**
- If you're receiving the error "the product key is invalid" visit the knowledge base page to resolve your issue
- Already have a copy of Tableau Desktop or Tableau Prep installed? Update your license in the application: *Help Menu -> Manage Product Keys*

This key is for your personal use only. Please do not share it.

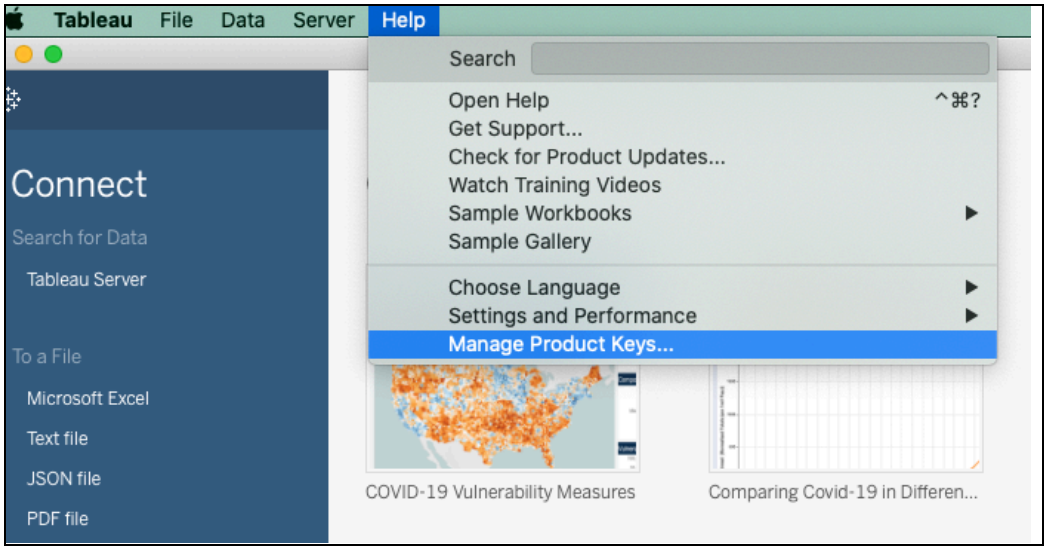

Once Tableau is installed, get started with free training videos and visit the dedicated student resource page. Need additional help? Check out the FAQ's or submit a case for installation support.

Best,

Tableau Academic Team
Tableau Software

5. If you do not see it, please email tft@tableau.com to follow up with you and give you your product key activation. **A recall is free for students for 1 year and then you will be prompted again if you are still in school.**
6. If you received your key product then download Tableau Desktop (preferably 2020), once downloaded it will ask you if you take the 14-day trial or activate your product key.
   6.1. Click on activate product key and copy and paste the product key you received on your email address here.
7. Open Tableau Desktop on your laptop, locate the tab **Help** on your top bar, find the option **Manage Product Keys** and introduce your key in order to activate your license.

You have successfully downloaded Tableau!
