

Opportunities from CIT

[Jump Start Grants](#) Monetary and consulting support for incorporating new technologies, projects, or teaching approaches into courses or a curriculum. The projects are meant as a jumpstart for possible continued use. Recently funded projects for the languages include paying for online tutoring sessions and a subscription to a gamified mobile language application.

[DDI Grants](#) Monetary and consulting support for use of innovative technology into a course or curriculum. This is oriented more heavily toward new hardware use, like 3D cameras or drones. Recently funded projects include motion capture suits and developing computer programs for teaching.

[Online Duke Proposals](#) Monetary and consulting support for online teaching. This can mean MOOCs or Duke-oriented teaching. Recent funding includes setting up a course to be taught jointly between Greece and Duke, DKU initiatives, and filming clusters of videos to be used between courses in a department.

[Faculty Book Club](#) Be on the lookout for this summer's application -- we will meet in late July/early August
