FansForX Base Product Website

Project Acronym: FansForX

Version: Base Product

Project Title: FansForX Website Application

OVERVIEW

The main objective of the company is to provide website applications to watch posts/ entertainment Videos, buy products and users can earn by creating the PPV posts, referring users, updating profile subscription, Audio and Video call amounts and by selling products online.

GOALS

1. Users should be able to post/view the images/videos on their profile by Registering for the FansForX Web application.
2. Users are able to earn by creating PPV posts, getting tips, referring users, updating profile subscription, Audio and Video call amounts and by selling products online.
3. Users should be able to Go/Watch Live streams.
4. Users should be able to do Video and Audio Calls.
5. Users should be able to sell and Buy the products through this website.

PRE - CONDITIONS.

1. Users should create a profile successfully.

User Panel

Features

1. Sign Up

- To use the application, users should be registered successfully.
- Users can Sign Up for the application by entering all required valid user information and clicking on the Sign Up button.
- Users can enter a valid referral code of the existing user when signing up.
- Users will have the Check Referral option to check whether the referral code is valid or not.
- Users will be able to view all terms and privacy policy on the Sign Up page.
- Users will have the Login option on the Sign Up page.

The screenshot shows the 'OnlyAlly' sign-up interface. On the left is a large image of a woman in a red bikini sitting on rocks by the ocean. On the right, the 'OnlyAlly' logo is at the top with the tagline 'All in One Place'. Below the logo are input fields for 'Name', 'User Name', 'E-mail', and 'Password'. A red arrow points to the 'Referral Code(Optional)' field, which has a 'Check Referral' link below it. Another red arrow points to the text 'By signing up, you agree to our Terms of Service And Privacy Policy.' Below this is a purple 'SIGN UP' button. At the bottom, there are links for 'Already have an Account?' (which leads to 'Login for ONLYALLY', also indicated by a red arrow) and 'Activate Windows'.

2. Login

- After registration, users can login to the application using valid login credentials.
- The Sign Up option should be provided on the Login page.

The screenshot shows the 'OnlyAlly' login interface. On the left is the same image of a woman in a red bikini. On the right, the 'OnlyAlly' logo is at the top. Below it are input fields for 'demo@demo.com' and a password field represented by dots. A 'Forgot Password?' link is positioned above the purple 'Login' button. Below the button, there are links for 'Don't have an account yet?' (which leads to 'Sign up for ONLYALLY') and 'Activate Windows'.

3. Forgot Password

- If the user has forgotten their Credentials, there should be an option to reset the password on the login page.
- User must click on Forgot password, and enter the registered mail id to reset the password and be able to click on the Submit button.
- The password reset link must be send to the registered email address.

28. Become A Content Creator

- Normal user can update their profile to content creators.
- User must follow these steps to update.
- User must upload all required documents and send for approval.
- User must update billing accounts and profile subscription amounts.
- The Admin will approve the documents and update user to CC.

29. Two Step Authentication

- It is an important security measure that adds a second layer of protection in addition to your password.
- Here a user can add an extra layer of security to his account in case his password is stolen.
- This option is given inside the settings.
- Users can enable or disable 2 step authentication.

The image shows a 'Two Step Authentication' form. At the top, the title 'Two Step Authentication' is centered. To the right, there is a toggle switch labeled 'ENABLE' which is currently turned on. Below the title, there is a password input field with the label 'PASSWORD' and a masked password '*****'. A red box highlights the password field. Below the password field, there is a blue 'Submit' button. Another red box highlights the 'ENABLE' toggle switch.

- If the user is enabled , then the verification code will be sent to the registered mail..
- Now the user has to verify the code.
- After setting up 2-Step Verification, the user will sign in to his account in two steps using:
Something you know, like your password. Something you have, like your mail.
- If the user does not receive the code, then he can send the request for the code by clicking on ‘Send Request’.

The image shows a 'Your Verification Code' form. At the top, the title 'Your Verification Code' is centered. Below the title, there is a message: 'For verification code, please check your email inbox'. Below this, there is a prompt: 'Enter the verification code'. Below the prompt, there are four input fields for the verification code, each containing a digit: '8', '5', '6', and '2'. Below the input fields, there is a blue 'verify' button. At the bottom, there is a message: 'Haven't received the code?' followed by a blue 'Send Again' button.

30. Logout

- Users will be able to logout from the application by using this option.

31. Login Session Management

- The user can manage their logged-in devices. Based on the device details.
- If the user has reason to believe that someone has accessed their account without permission, they should change your password as soon as possible or close login sessions.
- User is able to see the below information when the user logs in.
 1. browser details (Chrome 95.0, Mac 10.15, Apple)
 2. IP Address
 3. Country
 4. Logged-in time
 5. Last updated at
 6. Session status (Active now / InActive)

33. Stories

- Stories allows users to share photos and videos as their status.
- And this status will disappear automatically after 24 hours.
- And the following users can view these stories,
- Stories are displayed with some basic information such as user name ,created time.
- Both User and Admin can create stories.

34. Wallet/Token System

- Complete system will work on the token. All transactions need to happen using tokens.
- The admin will set a predefined token with an equivalent amount(similar to subscription) and the user can buy those.
- Users can purchase tokens using card or paypal.

35. Video Preview For The Post

- Each content creator will have the option to upload a video which acts as a preview for the **PPV Video Post**.
- Video previews let you see a short preview of a video before watching.

- When you hover over a video's thumbnail on your computer, you'll see a preview. After the video preview plays, you'll see the video's thumbnail.

35.Featured Story

- The story which can be saved on the profile so the user can view it anytime. This story doesn't expire.

ADMIN PANEL FEATURES

1.Login

- After registration, admin can login to the application using valid login credentials.
- The admin should enter valid login credentials.

The login screen for ONLYALLY features a purple background with an illustration of three people interacting with digital devices. The text 'ONLYALLY' is at the top, followed by 'ONLYALLY - Influencer Marketing Platform'. To the right, the 'OnlyAlly' logo is above the 'Login' heading. Below this, there are two input fields: 'Email Address' with the value 'demo@demo.com' and 'Password' with masked characters '.....'. A red arrow points to each field. At the bottom is a purple 'Login' button, also indicated by a red arrow.

1.login.(a)

2. DashBoard

- The dashboard is the front page of the Administration UI. It provides convenient shortcuts for common management tasks, some server information, and Review Board project news updates.
- And gives you a quick overview of all activities taking place on the platform.
- Here, The admin can view all the basic details such as users, posts, users counts, posts counts, Posts statistics, recent posts, posts payments and total revenue details.

3.2.5.decline user.(a)

The screenshot shows the Admin interface with a sidebar on the left containing 'Admin' profile, 'Dashboard', and 'ACCOUNT MANAGEMENT' with a 'Users' link. The main area displays a table with columns: 'type', 'Wallet Balance', 'Status', 'Is Email Verified?', 'Two Step Authentication', 'Is Badge Verified?', 'Documents', and 'Action'. A modal dialog is open at the top center with the text 'cms.onlyally.com says' and 'Magdalen - Do you want decline this user?' with 'OK' and 'Cancel' buttons. The first row of the table has a 'Declined' status. The 'Action' dropdown for the first row is open, showing options: 'View', 'Upgrade To Content Creator', 'Upgrade To Premium Account', 'Edit', 'Delete', and 'Decline' (which is highlighted with a green box).

3.2.5.decline user.(b)

3.2.6. Approve User

- The Admin will have an option to Approve Single/multiple declined user accounts.
- Using this option, the admin is able to approve the declined users.

The screenshot shows the Admin interface with a sidebar on the left. The main area displays a table with columns: 'type', 'Wallet Balance', 'Status', 'Is Email Verified?', 'Two Step Authentication', 'Is Badge Verified?', 'Documents', and 'Action'. The first row has a 'Declined' status highlighted with a green box. The 'Action' dropdown for the first row is open, showing options: 'Upgrade To Content Creator', 'Upgrade To Premium Account', 'Edit', 'Delete', 'Approve' (highlighted with a green box), and 'Add Badge'.

3.2.6.approve user.(a)

The screenshot shows the Admin interface with a sidebar on the left. The main area displays a 'View Users' section with a green banner at the top that says 'The User Declined Successfully!!'. Below the banner are buttons for '+ Bulk Action', 'Export to Excel', and 'Add User'. The '+ Bulk Action' dropdown is open, showing options: 'Delete', 'Approve' (highlighted with a green box), and 'Decline'. Below the dropdown is a 'NOTES' section with three bullet points: 'A user is both a content creator & a fan', 'A user is a content creator - if he/she has uploaded the necessary documents, provided bank details, and has a subscription (paid or free) created.', and 'Verified Badge: The check appears next to the profile to authenticate it as a brand or public figure.'

3.2.6.approve user.(b)

3.2.7. Add Badge

- The admin will have an option to “Add Badge”.
- Using this option, admin is able to make users as badge verified.
- The badge verified/added user name is displayed with a badge symbol.

9.1. Add User Category

- The Admin will have the option to create a user category by entering category name and description.

The screenshot shows the 'Add User Category' form in the Admin panel. The form has a header 'User Categories' and a breadcrumb trail 'Home > User Categories > Add User Category'. The form itself is titled 'Add User Category' and has a 'View User Category' button. It contains two main sections: 'Category Name*' with a text input field labeled 'Name', and 'Select Picture' with a 'Choose File' button and a note 'No file chosen. Please enter .png .jpeg .jpg images only.'. Below these is a 'Description' section with a text area and a note 'Note: Only 199 characters are allowed to enter.'. At the bottom right are 'Reset' and 'Submit' buttons.

9.1.add cat.(a)

9.2. View User categories

- The View User categories management gives you a summary view of how each category sees all of the features on your site such as category name, Total Users, description and the Status.
- The Admin can **filter** categories on the list by Category status.
- The Admin can **Search** categories by using category names.
- The **Bulk action** is an efficient way to complete certain actions to multiple sections at one time as opposed to completing the same action multiple times. Here, you can perform a bulk action to: Delete, Approve, and Decline the categories.

The screenshot shows the 'View User Category' management table in the Admin panel. The table has columns for 'S No', 'Category Name', 'Users', 'Description', 'Status', and 'Action'. There are four rows of data. A green box highlights the 'Select Status' dropdown menu, which is open and shows 'Approved' and 'Declined' options. Another green box highlights the '+ Bulk Action' and 'Add User Category' buttons. The table also has a search bar and a filter dropdown.

S No	Category Name	Users	Description	Status	Action

25. Account

- The admin account details are displayed here.
- And The admin can perform some profile related actions such as update profile, change password and upload profile image.

The screenshot shows the Admin Profile page with the 'Update Profile' tab selected. The page has a blue header with a menu icon and the user's name 'Admin'. The main content area is divided into two columns. The left column displays the user's profile picture (a man in a suit), the name 'Admin', and the email 'demo@demo.com'. The right column contains three input fields: 'Name' (containing 'Admin'), 'Email' (containing 'demo@demo.com'), and 'About Me' (containing 'About..'). Below these fields are 'Reset' and 'Submit' buttons. At the top of the right column, there are three tabs: 'Update Profile' (active), 'Upload Image', and 'Change Password'.

25.(a)

25.1. Update Profile and Image

- Here, the admin can update his account details such as name, image, email and about me.

This screenshot is identical to the one above, showing the 'Update Profile' tab of the Admin Profile page. It displays the user's current details and the form fields for updating them.

25.1.(a)

The screenshot shows the Admin Profile page with the 'Upload Image' tab selected. The 'Update Profile' tab is still visible on the left. The main content area now shows the user's profile picture and the 'Picture' section. This section includes a 'Choose File' button, the text 'No file chosen', and a note: 'Please enter .png .jpeg .jpg images only.' Below this are 'Reset' and 'Submit' buttons. The tabs at the top are 'Update Profile', 'Upload Image' (active), and 'Change Password'.

25.1.(b)

25.2. Change Password

- Here, the admin can update his password by using this feature.

The screenshot shows a web interface with three tabs: 'Update Profile', 'Upload Image', and 'Change Password'. The 'Change Password' tab is active. It contains three input fields: 'Old Password', 'New Password', and 'Confirm Password'. Below the fields are two buttons: 'Reset' (orange) and 'Submit' (purple).

25.2.(a)

25. Logout

- The Admin can log out from the account using this feature.

25.(a)

26. Session Management

- The Admin can able to view all user sessions
- Here, The Admin can see the details such as user name, device type, device model, browser type, IP address and last session.

Admin

User Session

Home > User Session > View User Session

View User Session - User

NOTES :

- Here you will find all the session logged in via this Account.

S No	User Name	Device Type	Device Model	Browser Type	IP Address	Last Session
