

Workshops 3&6 : Open Space Workshops

Time: 11:15-12:45 and 14:00-15:30

Where: Room Atelier 3, face-to-face workshops

Workshop hosts: Beatrice Schulter, RECI

With: any workshop participants

How it works and what we are going to talk about

The Thematic Day comprises two "open spaces", that will be filled with topics, questions or contributions proposed by participants.

Do you have a topic or question that you want to discuss, which is not covered by any of the four thematic workshops? If yes, you have two possibilities to propose them:

- Provide your input online *before the Thematic Day* here, deadline 14 November, [Submit your contribution here](#)
- Provide your input during the Thematic Day: before the workshops start, there will be a possibility to propose further topics and questions.

The selection of the topics will be done jointly by all interested participants during the Thematic Day. Apart from your proposals of topics, no preparations are necessary.

The workshops will be facilitated by Beatrice Schulter, using workshop methods that allow groups to self-organise.

Language(s):

English, French and/or German. We will define the language(s) of the workshop jointly, based on the wishes of the participants. Consecutive translation will be done if needed.

Join the Open Space workshop, if...

- ***...you want to discuss SDG 4.7 with focus on a question or topic not covered in the thematic workshops***
- ***...you are interested in topics proposed by other participants***
- ***...you want to participate in an interactive self-organised workshop without any presentations***

What questions, topics, or experience would you like to share during the workshop? Use this space to note them down and bring them to the workshop.
