

Privacy Policy for MultiTool Sidebar Chrome Extension

Last updated: 06/10/2024

Thank you for using the MultiTool Sidebar! Your privacy is very important to us, and we are committed to protecting your personal data. This privacy policy explains how we handle the information collected when you use our extension.

1. Information We Collect

MultiTool Sidebar does not collect, store, or share any personally identifiable information (PII) from users. The extension operates entirely within your browser and performs all tasks (PDF merging, image compression, and resizing) locally on your device.

2. Permissions We Use

Our extension requests the following permissions:

- **activeTab:** This permission is used to allow the extension's sidebar to overlay on the active tab you are working on, providing easy access to the tools. We do not collect or store any data from the active tab.
- **storage:** We use the storage permission to save your tool preferences and settings locally in your browser, such as compression levels and image resizing dimensions. This ensures a personalized user experience. No data is shared or sent to external servers.
- **sidePanel:** This permission allows the extension to display tools in a sidebar format without interrupting your browsing experience.

3. Local Processing

All document and image processing (PDF merging, image compression, and resizing) is performed locally within your browser. This means that none of your files or data are uploaded to external servers. Your privacy and security are our top priorities, and we ensure that all operations remain within your control.

4. Third-Party Services

We do not use any third-party analytics tools, tracking, or advertising services in this extension. Your browsing activities and the files you edit remain entirely private and within your device.

5. Data Sharing

We do not share, sell, or transfer any personal data to third parties. Since the extension processes everything locally on your machine, no information is transmitted externally.

6. Data Retention

Since MultiTool Sidebar does not collect any personal data, there is no retention of your information. Any temporary data such as settings is stored locally on your device and can be cleared at any time by resetting your browser's local storage.

7. Changes to This Privacy Policy

We may update this privacy policy from time to time. Any changes will be posted on this page, and the "Last updated" date will be revised accordingly. We encourage you to review this policy periodically to stay informed about how we are protecting your data.

8. Contact Us
