

Department of Electrical and Electronics Engineering

Academic Year: 2020-2021

Semester: V

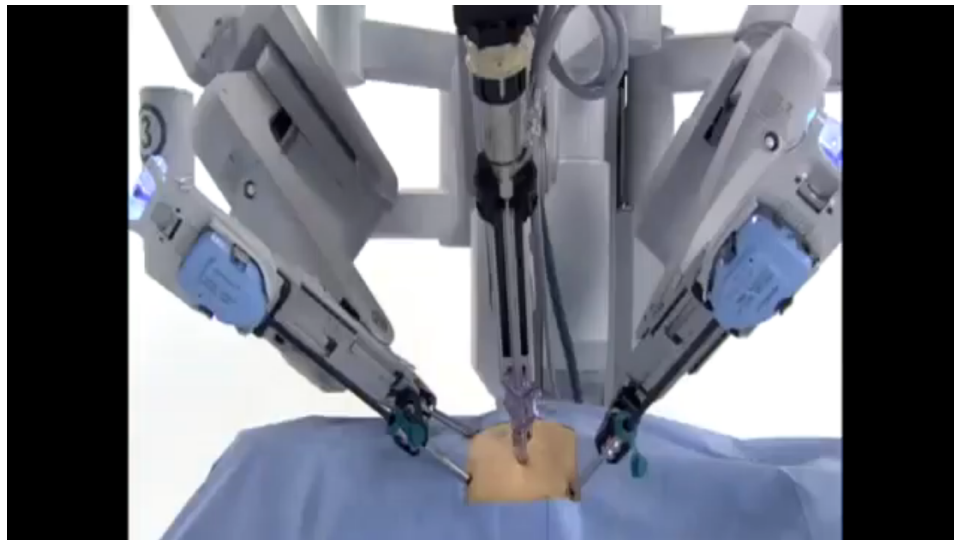

Batch: 2018-2022

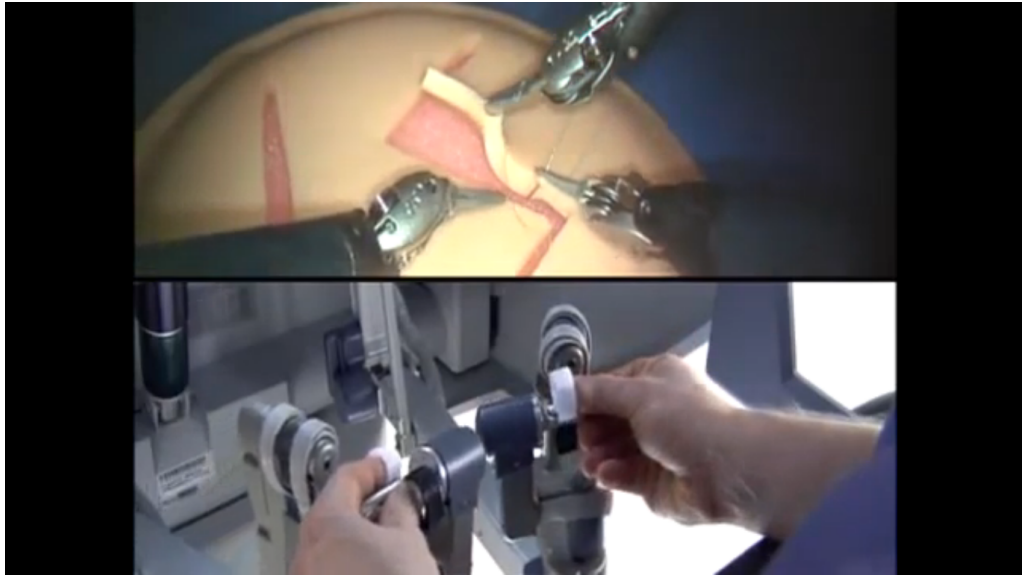

Subject Code: EE18001

Subject Name: Biomedical Engineering

1. **Method 1:** Online resources - experiential learning

Description: The Robotics Surgery is an emerging technology in Biomedical Engineering. In order to support the theoretical explanations, online resources like video demonstrations on Robotics Surgery were displayed using ICT tools in the classroom. It facilitates students experience the procedure and concepts of Robotics Surgery.
