Comments: 3-4 years ago, I'd have been thrilled with 5 guys under 11:00 on a hot afternoon in August. After all, only 3 of our teams have ever done that. However, I think that we SLIGHTLY underperformed with our #3-7 runners. Not to worry, this was our first truly HARD effort of the year, AND we'd had a less than spectacular week of training due to heat and smoke last week. All in all, a very good effort for the top 7. We ran our #2 team time ever for this time trial, second only to the 2019 team which was able to run in the evening....a huge advantage.

Good efforts by some of the new guys and Israel. Izzy, for a guy that hasn't trained much and seems to always try to get out of stuff, you're pretty decent. Compared to our Big Dogs though, you have a long way to go!!

Comments:

I feel that this effort does not represent where we are as a team. From what I saw on the last few long runs, I KNOW we've got a lot more in us. Only Cailin stepped up big from her previous efforts, but MOST of the varsity crew is putting in really solid training. Next time out, let's just run free and let it rip.

Special shout out to Anelle. After coming to the team barely able to run more than a lap, she has made tremendous improvements. Keep up the good work, Anelle!
