Garry Joined the Marines at 18, he rose through the ranks quickly. Being stationed in Iraq he learned how to do basic field medical where he learned and excelled, he further learned how to do surgeries, and basic medical checkups, and also became familiar with Snipers and heavy weaponry.

After serving the country in the Marines for 15 years, he deserted his group after they plotted to betray him and use him as bait for the enemy. 6 years later after going rogue from the Military to protect himself, Garry was recruited into The Chaos Insurgency at Cell Platinum and then Transferred to Cell Omega 4 years later. He showed Great exceptional Skill in medical where the current co-lead of medical saw that he had great promise in the medical where he then became the Medical co and acting lead while the current Lead was MIA for a few months. Once the Lead returned she saw promise in Garry.

After excelling in Cell Omega after a few months he became a part of Alpha Command, becoming the Colonel of Chaos Becoming the Right-hand man of the 3rd Chaos Commander of the cell. Unfortunately due to the current disease around the cell, Famine has aged about 15 more years than his actual age.

After Sarkics took over Site 73, Cell Omega in the Yukon Territory, The area was put under a red Veil which trapped everyone inside of it and kept everyone out. But thanks to the Anomaly named Eveda everyone was able to get out except a Blackwatch member who stayed behind to take out the sarkics with both the warhead from site 73 and the Cell Omegas bomb going off. He is now stationed in the Alaska area of Twin Pines remaining by the Commander's side as the Colonel of cell Omega-2.
