

Creating Canvas Assignments with Office 365

Course Agenda

Estimated Time to Complete: 19 Minutes

Overview

This course will walk through the creation of assignments where students can submit files from their OneDrive, and also the creation of Office 365 Cloud Assignments, which provide each student with a template that they can then fill out and submit to the instructor.

Module 1 | File Upload Assignments

- Create a File Upload submission
- Understand the student process for submitting an assignment from the student's One Drive

Module 2 | Cloud Assignments

- Create an Office External Tool Assignment
- Provide a One Drive document to students
- Finalize the assignment settings for student engagement
