

**HERMANTOWN
FIRST LEGO LEAGUE**

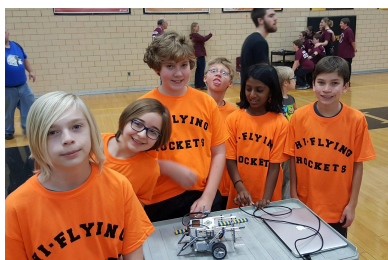

**FIRST
LEGO
LEAGUE**

Introduction

2016 was our inaugural season of The Hermantown FIRST™ Lego League (FLL). The mission of FIRST™ (**F**or **I**nspiration and **R**ecognition of **S**cience and **T**echnology) is to inspire young people to be leaders in science and technology by engaging them in mentor-based programs that build science, engineering, and technology skills, while also building self-esteem, life skills, and community awareness.

Hermantown FLL had three teams compete in the regional tournament here in Duluth in 2016. In their rookie year, the team High Flyers advanced to the Minnesota State sectionals. This was an impressive feat, as only 8 out of 27 teams advanced in the tournament.

Today, the Hermantown Lego League has 5 Teams. It is our goal to educate and motivate students, and prepare our kids for the high school robotics program or maybe even a career in science and technology.

To prepare future FLL members, the team members and mentors will be offering Lego Robotics classes for students this winter.

There has been a lot of interest in this program and we are asking for your support to help improve our program and reach more students.

HERMANTOWN FIRST LEGO LEAGUE

Budget

This year we are hosting our first tournament and we have four competition teams along with a non-competition team. Please help us support the kids!
