

GC Bylaws Proposal - Committee Representation

Summary: Add a new article to describe the process for identifying Graduate College representatives for university and system committees.

Add new Article 9 (changed to 2.5) - kwh

Graduate College Representation on External Committees

When the Graduate College is asked to provide a representative to university or system committees, the graduate college dean in consultation with the Graduate College Executive Committee will appoint a representative. The appointment decisions will be guided by the following principles:

1. All Graduate College administrative faculty and graduate faculty who are actively involved in graduate education are eligible
2. Appointees will, whenever possible, possess relevant expertise or experience
3. Appointments will avoid any potential conflicts of interest when representatives have dual roles (e.g., graduate faculty and college faculty)
