

Please submit your report by January 25, 2024 to Becky Sideman (becky.sideman@unh.edu).

1. List your research and extension projects under the official NECC-2103 objectives, emphasizing collaborative projects with other researchers.

Objective 1 - Share information regarding on-going and planned research and extension activities pertaining to high tunnel agriculture.

Objective 2 - Complement and strengthen existing research and educational partnerships between members focused on high tunnel agriculture.

Objective 3 - Plan rigorous and relevant research that will optimize soil, water, crop and pest management for high value crops in high tunnels.

2. Include any data, research results, etc. that you would like to discuss at the meeting.
3. List retrievable or archived **publications** and **presentations** arising from your collaborative research and extension projects.
4. List any collaborative grants relevant to high tunnel specialty crop production.
5. List **ANY NEW/ADDITIONAL** facilities & equipment. Include production areas, sensors, instruments, and control systems; especially if these facilities and equipment are shared between states or facilitate multistate research.
