## 🚀 Your Quick Start Guide

💡I used to feel stuck — working hard but never getting ahead, always stressed about bills.

Then I stumbled on something simple: posting short videos and plugging into a system that does most of the heavy lifting for you.

**Here's how to get started (takes less than 15 minutes):**

Step 1: Secure your personal business link (your domain).
Step 2: Grab the exact products I'm selling online.

Step 3: Once you complete step 1 and 2, I'll invite you straight into my private Skool group "step 3" — where you'll get the blueprint, training, and community to actually make it work. And access to more affiliate networks.

Don't overthink this. Just take Step 1 now, and I'll personally guide you the rest of the way inside.

## Let's Launch Your Business!

## Step 1: Secure your personal business link (your domain).

Your domain is your brand — your business "home address" online.
This is what people will type in their browser to find you.

✅ You'll start with a 7-day free trial.

✅ After that, it's just **$10/month** (+ optional $1 security feature we highly recommend).

✅ Bonus: You also earn monthly commissions whenever others sign up through your link.

Attention. You should be paying $0 during the trial period. (Contact me wifiprenuer@gmail.com if it shows any other price)

I repeat:  Your total after the 7 days should be $11 a month.

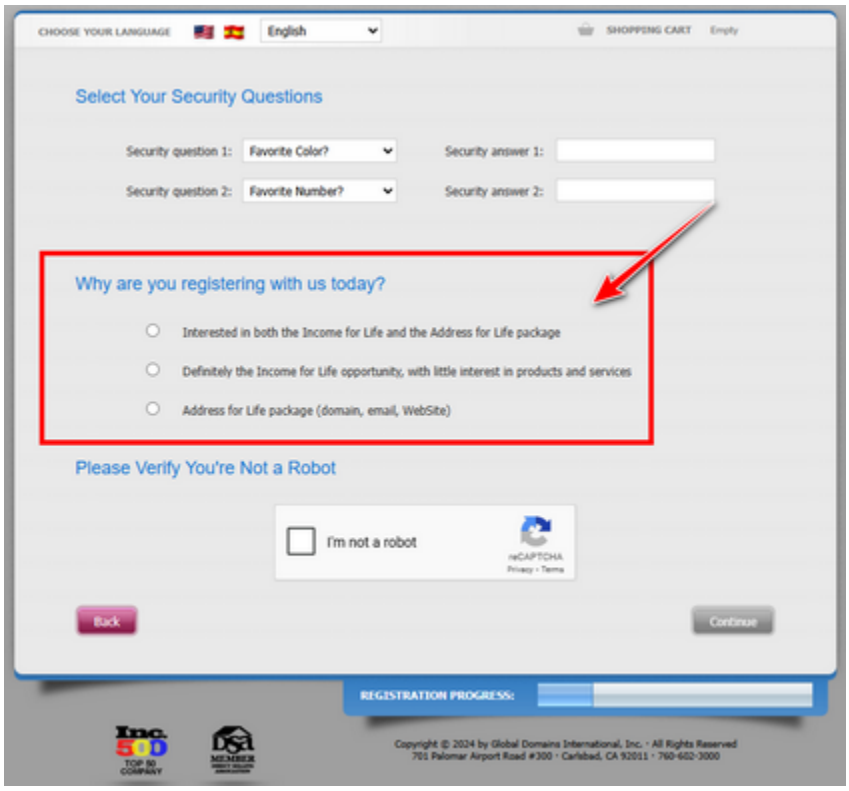

⚠️ Important: make sure you have the funds ready after your 7 day trial — if it expires, your website will go down.

👉 Choose a domain that's **short, simple, and easy to spell.** (Ex: mine is www.wifiprenuers.ws). Not every name will be available, so be flexible and creative.

Make sure you keep it on "ws" switching to .com can cost extra

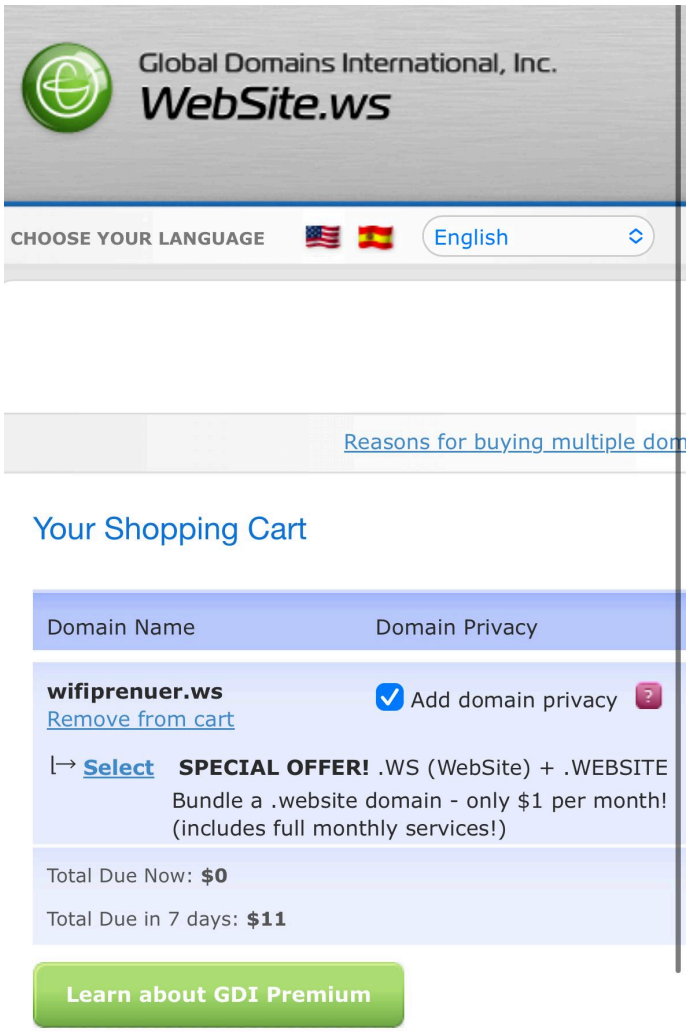

🔒 Don't forget to add the $1 privacy protection to keep your info safe.

## **Step 2:** Affiliate Products

This system is designed to be flexible—start where you're comfortable. The more value you choose to activate, the more earning potential and credibility you'll bring to the table.

Once again, if you want to be a part of my Skool Academy, you need to have our domain service and at least one of our affiliate products.

## Step 3: Join the Skool Academy (Community + Training)

This is where everything comes together. Inside Skool, you'll:
✅ Get the full blueprint & step-by-step training
✅ Connect with like-minded entrepreneurs
✅ Get support whenever you're stuck

👉 Use the same name & email you used for your domain + product.
