POG Clearance
Clearance Section

A few examples of how this works.
Tuesday Christmas items go to $0.10
During the Clearance Event they will be an additional 50% off. They will be only $0.05 at the register.

Red Dot Home Items are currently 25% off
During the Clearance Event they will be an additional 50% off.

If something is regularly priced at $10 25% off makes it $7.50 and during the clearance sale its an additional 50% off so the price at the register will be $3.75.

Each DG clearance sale I put together of items and matchups that we believe will be included. I call this my UNICORN list. These are the items I hope to get on a deal like toilet paper, paper towels and laundry products. These items are based on what I have recently found in my clearance sections at DG and preview DG clearance sales. It is a possibility that these items will not ring up automatically 50% off during the sale. I'll make lots of videos during the sale keeping you up to date on what's ringing 50% off and what isn't.

Instead of sharing the clearance list, please share my video link.

All Prices are AFTER 50% off Clearance Price
UPC of products found at my store are included if available.
