

ELTP Season 11 Commissioner Application: meherethere
Contact: [/u/meofherethere](#)

What role are you applying for?

ELTP Commissioner

In your opinion, what should the commissioner structure look like?

Triumvirates are the best for this kind of organisation, I'm not quite sure I understand the question here but yea, three people is the right amount to not let stupid decisions through without ruining everything by committee. I hope this is at least being done by some sort of fair vote.

What is your previous TagPro experience?

Lets see bunch of OLTP. I've been on the MTC for six months now without killing myself and I once won the ENLTP europa cup the one time I showed up.

Why do you want to be a Commissioner?

everyone else is probably going to do a worse job at it than me.

How active will you be in the next few months within the community and during Season 11/4?

I'm active all night. it's looking like 4 months of not doing too much on my end.

What is your manifesto for ELTP?

the less people that quit the better. I've tried my best to advertise for tagpro with no budget as I imagine some of you know but lets face it tagpro is a bit dead so I can't really expect a bunch of new players will show up. This means that player retention through making it a good time for all involved is very important. Ideally while majors would still have a strong competitive air the league as a whole will become more focused on a good time.
