We're in a Mess by Faith Watson

Well, I don't know what to do now
Feels like everything has gone wrong
Gotta trust that between us we'll work out a way to move on.

Perhaps together we'll find our voices
Because together is how we work best
We're in it together. Let's find a way forward
And together get out of the mess we're in.
We're in a mess.

We're in a mess, we're in a mess.
We're in a mess, we're in a mess.
We're in a mess, we're in a mess.
