1. QUESTION (E6.6.R1 - Occupations) Text: My aunt, Sarah, is a professional nurse in a large hospital. She started her career on the tenth of May, two thousand and ten. She helps the doctors and takes care of the patients with great patience. She often works late at night, but she never complains because she likes helping people. **Question:** What is Sarah's job and what are her main responsibilities? Write the date she started her career using words.

Answer: Sarah is a nurse. She helps the doctors and takes care of the patients. She started her career on the tenth of May, two thousand and ten.

2. QUESTION (E6.8.R1 - Bookworms) Text: Jack was a real bookworm when he was a child. Two days ago, he found his old diary under his bed and read his memories. He wrote in his diary that he went to a book fair on the fifteenth of April last year. He bought five science-fiction books and met his favorite author there. **Question:** Where did Jack go on the fifteenth of April last year? What did he do at the book fair?

Answer: Jack went to a book fair on the fifteenth of April last year. He bought five science-fiction books and met his favorite author.

3. QUESTION (E6.8.W1 - Bookworms) Task: Write a short paragraph about your last weekend. Describe at least two activities you did and mention the specific days (Saturday/Sunday).

Answer: (Example) Last Saturday, I visited my grandparents in their village and we picked some fresh fruit from the garden. On Sunday morning, I went to the cinema with my sister and we watched a funny animation movie. After the movie, we ate some delicious pizza at a restaurant at one p.m. It was a very busy but wonderful weekend for me.

4. QUESTION (E6.9.R1 - Saving the Planet) Text: Air pollution is a big problem for our health. Factories shouldn't pour their chemical waste into the rivers or the seas. Also, people should use solar energy instead of coal to heat their houses. If we don't take precautions now, the global warming will increase and icebergs will melt. Protecting the planet is everyone's responsibility. **Question:** What should factories do to protect the water resources? What kind of energy should people use for heating according to the text?

Answer: Factories shouldn't pour their chemical waste into the rivers or the seas. People should use solar energy instead of coal to heat their houses.

5. QUESTION (E6.9.W1 - Saving the Planet) Task: Write a short "Save the Planet" guide for your school magazine. Give at least three tips about how to save energy or reduce pollution at school.

Answer: (Example) First, we should turn off the smart boards and lights before we leave the classroom. Second, we should use both sides of our papers to save trees. Third, we shouldn't waste water in the school canteen or bathrooms. Finally, we should put our plastic bottles into the recycling bins in the school garden.
