

Preserving Energy Everyday Parent Letter

Dear Parents and Guardians,

We are thrilled to inform you about an exciting energy-saving campaign led by the students at _____ (*Name of School*) in partnership with non-profit, Grades of Green and the City of Long Beach. As we embark on this journey to promote energy conservation, we invite you to join our efforts to save energy at home and contribute to a greener, more sustainable future.

Our students are passionate about making a positive impact on the environment and are taking the lead in championing energy-saving practices. Here's how you can get involved and support our school's energy-saving campaign:

- **Lights Off When Not in Use:** Encourage your family to turn off lights in unoccupied rooms to reduce unnecessary energy consumption. Consider using energy-efficient LED bulbs for added savings.
- **Unplug or Power Down Devices:** Make it a habit to unplug or turn off appliances and electronic devices when they're not in use. Many devices continue to draw power in standby mode.
- **Optimize Thermostat Settings:** Adjust your home's thermostat to conserve energy. Lower the temperature during colder months and raise it during warmer months. A programmable thermostat can be a valuable addition to your energy-saving toolkit.
- **Seal Leaks and Insulate:** Ensure your home is well-insulated to prevent energy wastage. Address any drafts, gaps, or leaks around windows and doors.

By supporting our students in their energy-saving campaign, you are helping them learn essential lessons about environmental responsibility and sustainable living. Your active participation at home can make a real difference and reinforce the importance of saving energy within our school community.

We encourage you to sign the enclosed pledge, committing to take the necessary steps to reduce energy consumption in your household. Return the signed pledge to your child's school to demonstrate your family's dedication to this cause.

Let's work together to create a brighter, more sustainable future for our children. Thank you for your support in making our energy-saving campaign a success.

Thank you for your support!
