

Expected Behavior: Students assist others in need of help at school, at home, and in the community

R espect	O wnership	A chievement	R esponsibility
Students offer to help out or lend a helping hand to someone who needs it.	On a daily basis, student monitors the classroom, playground, and cafeteria for students in need of help or support, and then provides it.	Student is actively sought out by others for help as they are known as being helpful and supportive to others.	Student volunteers their time to assist with a service project that benefits a person or group in need.

If your child does anything to demonstrate **HELPING OTHERS** throughout the month of October, please share with the classroom teacher to earn a paw!

This month we will be collecting change to benefit the Ellie Fund! Students will earn classroom incentives for meeting milestones throughout the donation period (10/3-10/31)
