Special thanks to Captain Planet for supplying the vast majority of the maps I used for research.

allstars .95

heroes from TFT 3.9- 7.0:

vengeful spirit

batrider (essentially crystal maiden, long story short, Eul had Frost Maiden, GEO gave his skillset to the batrider model, Guinsoo later changed that back)

jakiro

sven

furion

silencer

astral trekker

rhasta

shaolin monk

drow

mountain giant

pugna (note: this hero is called “tormented soul”, but it is not leshrac, leshrac will be known as tormented soul later)

death prophet

lion

hydra

magnataur

necro

skeleton king

slithereen guard

doom

qop (mostly based off TFT hero Warden)

Faceless void

viper

monstrosity

Darkness Falls (**Darkness Falls has a LOT of overlap with Ancients Defense. It's possible that a hero they decided to port, say Void, was the Darkness Falls version and not TFT ancients Defense version as I described above)**)

black spider
conjuror

DX
Stealth Assassin

TX (I can't really find existence of a TX Dota this is 100%process of elimination)

Battlemaster
Lina
Thunder God
God
Holy Knight
Nerubian Assassin
Lich?
Death Revenant

2.6
