

STUDENT INSURANCE COVERAGE

The School District has no general health insurance policy directly insuring students against accidents or injuries occurring at school or during athletic activities. The school does make available a student accident insurance protection plan with an open enrollment. We urge parents to evaluate their current health insurance coverage and to read carefully the options available under the student plan (attached) before deciding whether or not to sign up for this protection plan.

Since students who participate in extra-curricular, co-curricular, or inter-scholastic activities are more likely to have an accident, some form of health insurance coverage is strongly recommended for all students who participate in those activities.
