

## **Circulation, Respiration and Muscles Veritech**

### **Case**

1. The liquid part of blood
2. Muscles that move us
3. Blood cells that carry oxygen
4. Thick walled vessels that carry blood away from the heart
5. Known as the windpipe
6. Involuntary muscles
7. Build up of fat and cholesterol can lead to this
8. The air sacs of the lung
9. A tissue that insulates and supports
10. A bacterial disease of the respiratory system
11. Thin walled vessels that carry blood back to the heart
12. Blood cells that fight infection

### **Tiles**

1. Smooth
2. Arteries
3. Plasma
4. Trachea
5. Alveoli
6. Red blood cells
7. White blood cells
8. Connective
9. Skeletal
10. Veins
11. Coronary artery disease
12. Tuberculosis
