Science in the News:

1. **Cite your article**: (Use link in google classroom to help you)

CHOICE: You can either do the Summary or the CER paragraph.

2. **Write a summary of article: (Who/What, When, Where,Why, How)**

3. **Answer this question: How did this article show science being used to impact humans, show how something works, or relate to our class studies?**

Claim: (restate the question and answer it directly)

Evidence (*Use a quote from the article that supports your claim*):

Reasoning (Give reasons why that quote proves your claim):

	Exceeding Standard 4	**At Standard 3**	**Approaching Standard 2**	**Developing 1**
Literacy in science	**4** Cites the article according to MLA formatting and article from a trusted source. Includes all key summary points, uses complete sentences CER FORMAT with great details and transitions.	**3** Cites Title, author, date, website, but not in format. Includes most key summary points, complete sentences CER FORMAT with adequate detail	**2** Cites Title, author, date, Includes a few key points, with some incomplete sentences, NOT CER format. Missing some elements.	**1** Title or URL only Misses many key points, many incomplete or **copied** sentences. NOT CER. Need teacher support.
Science Content Standard	Explains how the article uses science to solve a world problem that impacts humans.	Explains how or why something works in science with possible connections to our studies in class.	Tells how or why something works in science, but provides no reasoning to its importance.	Incorrectly discusses how science is used or not at all.
Work Ethic	Done Early on in the Trimester Neat, Relevant,independent Invested in the topic and could answer questions about it. Did not use AI	Done on Time Neat, Independent Completed with some effort and showed interest in learning something new.	Late Needed some support Some incomplete parts and couldn't really communicate it to others very well.	Late Relied heavily on teacher support Many incomplete parts

Score: *(Completed by teacher)*
