Clear Touch - Connecting Multiple Boards Wirelessly

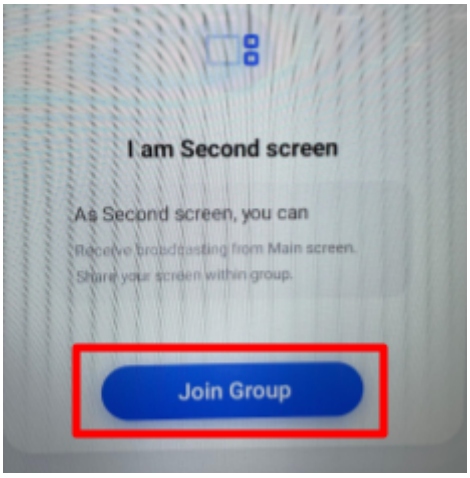

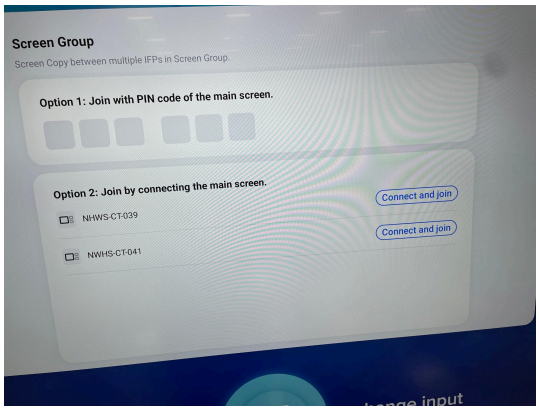

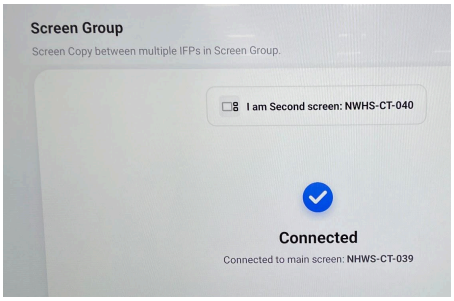

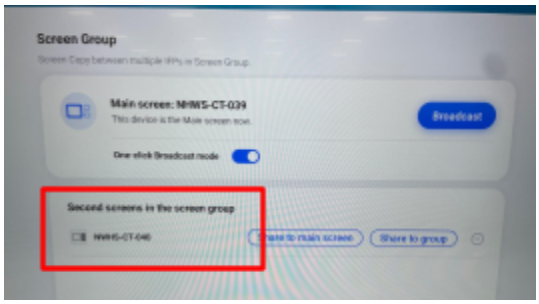

While laptops can only connect to 1 Clear Touch board at a time, Multiple Clear Touch boards can be added to a Screen Group that wirelessly connects them to 1 main Clear Touch board which is connected to the teacher laptop.

1.Launch the ***Collage*** app on the teacher laptop.	
2. On the Clear Touch board that you wish to connect the laptop, tap the ***Collage*** app. This will be the Main Screen in the group.	
3. Tap **MENU** in the bottom left corner.	
4. Tap **SCREEN GROUP.**

5. Under “I am Main Screen.”, tap **CREATE A GROUP**.	
6. It should list your Clear Touch as the main screen.	
7. On additional screens,... 1. Open Collage app. 2. Tap Menu. 3. Tap Screen Group.

8. On the 2nd Screen, find the “I am Second screen.” tool and tap JOIN GROUP.	
9. Still on the 2nd Clear Touch, either… ● Type the Main Screen’s PIN code, or ● Look for “Option 2” and tap **CONNECT AND JOIN** by the name of the Main Screen.	
10. The 2nd Screen will show **CONNECTED** and that it is a “Second Screen”.	
11. Back on the Main Clear Touch, you will see the name of the Clear Touch you connected as a 2nd Screen.

12. Tap **BROADCAST** to the right of the Main Screen's name. Both screens will now match.	
13. Back on your teacher laptop, tap **START** in the **SCREEN SHARE** section.	
14. Pick **DESKTOP,** and tap **MIRROR**.	
15. On the Main Clear Touch board, tap **ACCEPT** to complete the connection from your laptop.	
15. Both Clear Touch boards should show the same screen. There is a slight delay on the second screen when actions are done on the laptop.	
When done… 1. Disconnect from ***Collage***, 2. Tap **STOP BROADCASTING** from the main board and close the ***Collage*** screen group to separate the 2 screens.
