

Cloaks+ Manual Linux Install Guide

Step 1

Open a Terminal application.

Step 2

Run the following command.

```
wget -O - https://cloaksplus.com/alternate_downloads/linux.sh |  
bash -s install
```

Step Three

Restart Minecraft if you have it open, or Press ESCAPE and go to Options > Skin Customization > Optifine Cape and click Reload Cape. Make sure you have capes enabled in the Skin Customization menu.
