Server to Go Under Maintenance on Thursday

Following the attacks last Saturday and Sunday, chiefbozx announced that on Thursday, the server will go offline for maintenance in order to better harden it against future attacks.

The maintenance is planned to go along for at least a couple hours and all services will be offline. This maintenance hopes to keep the server safe against attacks that may cause damage to it such as the use of hacks in order to gain access to Console and ban players including moderators such as when moderator Missa_Solemnis was IP banned during one of the attacks.

The MRT experienced an attack earlier this year when two guests allegedly using shulkers lagged the server causing it to shutdown and later be taken offline. Many people suspect that the attacks last weekend were to do with an outdated Paper plugin. Some have also speculated that it might not be a coincidence with Frumple's break though for now, this is mostly baseless.

MWFP will continue to monitor the situation and keep our readers updated for further information.

_Mossie Leaves Server

_Mossie, famous for being the

Mayor of Secunda has announced that he is leaving the server due to changes in the community and recent drama. He has transferred all of his assets to other players. However, _Mossie did say that he will not be leaving the Discord server and will still come on once in a while although he will no longer be working on anything as he has no motivation to do so.

_Mossie was a moderator from March 2019 up until Modgate last October where he was demoted as part of an investigation into staff members. He holds the rank of Senator for Secunda.

_Mossie was also behind the ambitious A360 highway, a circular highway that would have gone around the New World though this is presumed to be cancelled as he did not mention it when giving away his assets.

Titsensaki Beats Silverville in MLS Playoffs

With the semi-finals and finals of Major League Spleef approaching, the playoffs have been happening at the time of writing. The Titsensaki Ribbits beat Silverville in their home arena in Titsensaki 3-0 and will proceed to the semi-finals. Initially, CyAmethyst of Silverville was leading 1-0 but soon lost the advantage when frogggggg of the Titsensaki Ribbits beat her in the second and third rounds. frogggggg mostly played a very defensive position throughout the game while CyAmethyst was more on the offence.

The Titsensaki Ribbits will face off against either East End, San Ostend or Millville in the Semi-Finals as they have not filled in that spot from Round 1. Due to scheduling issues, the match has not been held yet. Meanwhile the City State of Kitania has moved onto the Semi-Finals and will face off against Lapis Bay or Winterside.

MWFP Editor in Chief announces that satire articles from mi_aquamarine will not be accepted

Our Editor in Chief: HarborRandom852 announced that MWFP will not accept any satirical articles produced by mi_aquamarine. In a private statement to company employees, Harbor announced that due to mi_aquamarine's obsession with Ruff Ruffman and weird Cartoon references as well as nonsensical jokes, a ban on mi_aquamarine's satirical articles has been enacted.

"We hope that we can get some actual satirical articles in the future from other players," said Harbor in a company meeting with top executives in Miu Wan today.

Editor's Note: Okay but seriously, Aqua is cool with it so don't worry.

[Satire] Why the MWFP is better than the Epsilia

Here's why:

1. We make more than one article a month.
2. We cover news not just in Epsilon and Epsilon related cities and regions.
3. We put news first, satire later.
4. We don't have Ruff Ruffman or Ruffism.
5. Our logo is 100 times better than the Epsilia's, we use better colors :).
