## Optional Suggestions

- ☐ I encourage all families to consider keeping the following items in a couple gallon or two gallon ziploc bags in their **child's backpack** for "emergencies" such as bathroom accidents, chapped lips in the winter, stepping in dog poop, or even being picked up by another person because you have a fender bender or have to work late unexpectedly.
  - ☐ Extra uniform pant, shirt, and undergarments \*If you add a dryer sheet to the bag and squeeze the air out it will stay fresh all year. I recommend going one size up.
  - ☐ Granola bars or other packaged food that lasts a long time (for if your child misses breakfast or forgets a snack)
  - ☐ Small pack of baby wipes
  - ☐ Chapstick or vaseline
  - ☐ Toothbrush and toothpaste in a ziplock bag
  - ☐ If your child wears glasses- glasses case and glasses cleaning wipes
  - ☐ If your child has long hair- hair ties/ clip and brush
  - ☐ *Any additional small personal hygiene items your child may need to feel comfortable such as deodorant, baby powder, and floss picks*
- ☐ If your child frequently has a cough, headache, or upset stomach, I highly recommend completing the medicine form and keeping your preferred medication or treatment option in the office for Mrs. Laura to administer as needed. You will still be called so that you can decide next steps and, at your direction, we will be able to meet your child's needs and get them back to learning as quickly as possible for those times when they aren't quite 100% but checking them out is unnecessary.
- ☐ If your child has a known medical condition and takes prescription medication that is or may be needed at school, please make sure to complete the paperwork and get it to Mrs. Laura to store in the office.
