RULES (Please read before making your request)

1. All commissions are to be paid via Paypal up front. **DO NOT** send payment until I approve everything and give you the go-ahead.

2. **Have your payment ready requesting a commission.** It is advisable not to request a commission if you are not prepared to pay for it when prompted.
3. You may only reserve one slot at a time; wait until your commission is finished before reserving another.
4. Any/all original/obscure characters will require at least a few visual references.
5. **Any reference links you provide MUST NOT BE TEMPORARY.** Keep them active until your commission is fully complete, as I may return to them as many times as necessary.
6. If you want me to draw an OC belonging to another artist, be sure to have their consent beforehand.
7. If you want your commission to remain private/anonymous, let me know ahead of time; otherwise I will post them publicly.
8. **As of July 13, 2019, all comic commissions will be restricted to one page per commission slot.** Multiple pages take too long for me to complete with my busy schedule, and I'd rather not have other people on the list kept waiting longer than they already have to. **I'm willing to make an exception** to this rule ****IF**** you're last in line and it involves characters/series I really like.
9. Please make sure to **provide primary contact info** (email/IM) that you **check daily** so I'm able to reach you any time I have an update for you and you can get right back to me.
10. Above all, please be patient. Art takes time and I do have a life to manage outside of this. I will keep you updated with regular progress reports.
