

# Thank you for masking!

**Disability oppression is intertwined with Israel's settler-colonial project in Palestine.**

**Did you know?**

- **Israeli occupation authorities refuse to give out Covid vaccines in the West Bank and Gaza Strip. Instead, they destroy vital health infrastructure necessary to fight the virus.**
- **Covid continues to spread unchecked in Palestine today, with no available antiviral medication or medical care. This further contributes to the genocide.**
- **Covid is still a global struggle, both in Palestine and here in the UK. Millions of people worldwide have died and been disabled by Covid.**

**Please mask up in class, on public transport, in shops, and at medical facilities**

**Disability justice & anti-imperialism include wearing a mask beyond the encampment.**
