

A Landform reference guide

*** Work with the people at your table***

Choose landforms from the list below to describe and sketch. (7 landforms per person)

3 Person group = circle 21 landforms

4 Person group = circle 28 landforms

Landforms List (30 total)

Mountain	Volcano	Ridge
Esker	Moraine	U-Shaped Valley
Lake	River	Delta
Beach	Isthmus	Strait
Cliff	Mesa	Butte
Kettle Lake	Glacier	Waterfall
V-Shaped Valley	Canyon	Bay
Cove	Cape	Peninsula
Cave	Sinkhole	Gorge
Floodplain	Sea Stack	Coral Reef

For each landform chosen, complete the following 3-step process

1. Describe / Define the landform. "What is it?"
2. Explain the force that created it. "How was it made?"
- Was it Plate Tectonics / Running Water / Glaciers or / Waves & Currents?
3. Sketch what the landform looks like on a map. "What does it look like?"

This information should be put together in a book-type of format
