

New Technologies

Main Idea: Advances in science and technology help solve urban problems, including overcrowding.

Supporting Idea #1 Technology and City Life

How did engineering innovations help cities grow upward and outward?

What was urban planning and how did it improve city life?

Supporting Idea #2 Advances in Communication

What effects did advances in paper, printing, and photography have on publishing and journalism?

How did airplanes revolutionize communications as well as transportation?

How did technologies help improve communication and bring the nation closer together?

Create and complete the diagram (Organize Information) from page 215 in the space below.
