

R.A.G.E.'s Lore

The only lore page to document R.A.G.E.

R.A.G.E., the alternate version of Shay (read [Shay's official lore](#) for more info), is consumed by rage after being tormented by Guest 1337. He is indestructible, furious, and will kill anyone who tries to find the happiness he never had.

Months ago, he was found beheading a person with white skin and blue hair. After tossing him aside, he began chasing others relentlessly. Drawing from the experience he gained under his former mentor, Jason, R.A.G.E. hunts to avenge him.

Do not mistake him for smart beyond measure. He is cunning, yes, but he is driven by the hunt. He will chase you to the ends of the earth without

hesitation.

Canonically, he is 21. He was 12 when he entered the pocket dimension called Damnation. There, he finally got what he craved: blood, murder, death. He was free.

R.A.G.E. despises the Spectre. In Damnation, he witnessed the Spectre drag his mentor into the abyss. From that moment, he vowed revenge.

He does not kill for games. He kills for blood. He kills for the thrill. And when you see his smile, you will never sleep peacefully again.
