

In my Emerging Tech class we are doing a family history project and I need more information about our family tree and photos from our family's past. If you can provide me more information and photos I will greatly appreciate it. Please send all the information and photos to my email please! I would also like to know more about our family history and I think it will help me a lot. I would also want to know more about our family history myself because I am interesting to knowing more about our family history.
