

MIGRATION PUSH AND PULL

Purpose

Use your prior knowledge to predict some of the reasons people might choose to migrate in the period from 1750 to 1900.

Process

Later in this lesson, you'll learn about "push" and "pull" factors in migration. "Push" factors are things that make people leave or want to leave their original area. "Pull" factors draw people to a new area. Based on what you've learned in this unit, predict what some of these factors might be.

"Push" factors for migration from 1750 to 1900	"Pull" factors for migration from 1750 to 1900
