Questions & Answers 9th Grade Parent Night

How many students does each counselor have?
Counseling caseloads are divided up among the eight counselors. Each counselor has between 265 and 270 students on their caseload. These numbers may change slightly throughout the year with new enrollments or withdrawals, but the numbers are divided as evenly as possible. This also ensures that students can remain with the same counselor from freshman to senior year.

Does the sign language course count as World Language?
American Sign Language does count as a World Language credit and can be used to meet graduation requirements. MCPS offers ASL up to Level 3.

Can I please receive a copy of the presentation?
The virtual presentation video has been posted to the WWHS Counseling Website. You may also access the presentation here.

How and when do students register to try out for Fall/Winter sports?
Registration for Fall Sports was in August. Winter Sports registration begins in November, and Spring registration begins in March. You can find all information about our athletics, on the WWHS Athletics Website.

What is the process for a student leaving school early for an appointment? Can the student leave on their own or does the parent come in and get them?
Students leaving for an appointment should bring a written note on the day of the appointment. The note is presented to the Attendance office. Parents do not need to come into the building to retrieve a student unless the student does not have a note. All requests must be in writing. Learn more about our Attendance Policies here.
