

Welcome to the Certified Split Placement Partner Program

The *Certified Split Placement Partner* program is designed to equip TE Network members with the knowledge, mindset, and habits that drive consistent success in split placements. Rooted in the Four Pillars of the TE Network—Quality, Communication, Trust, and Active Participation—this certification focuses on real-world behaviors that lead to stronger partnerships, more placements, and greater value for clients and candidates alike. Whether you're new to the Network or looking to sharpen your skills, this program gives you the tools to operate at a high level and become a trusted go-to partner in TE.

How It Works

This training is divided into key learning sections, each representing a core competency of a top-performing split partner. Click and read through each section carefully. At the end of every section, you'll find a link to a short quiz that reinforces the key takeaways. Once you complete each quiz with a score of **80% or higher**, your progress will be logged. After passing **all required quizzes**, you'll receive your **Certified Split Placement Partner** badge—automatically displayed on your TE Network profile to showcase your commitment to professionalism and partnership
