- ★ **College Admission Rep Visits to Jenkintown - Information for students**: Dates and colleges vary (see the full list [HERE](#)) - these are **student-only sessions** - students must register in their SCOIR Account. College Admissions Representatives from near and far, come to visit with Jenkintown students. Make sure to check back often as new college visits are being scheduled daily. Visits this year will be In-Person and Virtual. **Please note** that these college admissions representatives are often the personal reps for Jenkintown - meaning that they could be the person who does the first read on your application. The session is not an interview - it's an opportunity for students to learn about the school, ask questions about programs and admissions, and introduce themselves to the rep who might read their application. There is no limit on how many sessions students can attend - in order to attend, students must get permission from teachers to miss class and attend the session.
