[Top Talented] Business Analyst

Introduction

<https://suzuverse.com/>

<https://suzuwalk.io/>

SUZUVERSE is a cutting-edge project that combines the latest technologies with the power of storytelling to create an immersive, interactive, and truly unique experience. By blending augmented reality (AR), artificial intelligence (AI), and 3D avatars, SUZUVERSE offers a truly groundbreaking approach to world-building and storytelling.

As a member of the SUZUVERSE team, you will have the opportunity to collaborate with other talented creators to build a universe that feels real, alive, and dynamic. With AR technology, you can bring the world of SUZUVERSE to life in your own environment, using your smartphone or tablet to explore new realms and interact with characters in real-time. AI will allow us to create intelligent and responsive characters that can learn, grow, and evolve over time, making each encounter with them unique and unpredictable. Finally, 3D avatars will enable us to create fully-realized characters that look and act like real people, adding a layer of depth and nuance to the storytelling experience.

By joining the SUZUVERSE team, you will be part of a community of trailblazers who are pushing the boundaries of what is possible in the world of storytelling and technology. Whether you're an artist, writer, programmer, or simply a fan of science fiction and fantasy, there's a place for you in the SUZUVERSE project. So why not join us and help create a new kind of universe, one where imagination and technology combine to create something truly extraordinary?

We are seeking a highly motivated and talented young business analyst to join our team. The ideal candidate will have a strong background in business analysis, with a focus on researching, making mockups, and having an excellent sense of trending UI/UX in the world. As a young and dynamic individual, you will be able to bring fresh and innovative ideas to the table, while also demonstrating a quick and intuitive business mindset.
