## Problem Solving

If you are unable to login to your results on the parent portal or DMS, please check for these issues:

- **Are you using an Apple device?**  
Some Apple users find that the portal will not open using the Safari browser. Try downloading the Chrome browser and accessing the Portal from there.

Many workplaces have restrictions which will prevent you from accessing the BSM portal - try accessing the portal from a different wifi network, or at home.
- **Did you change the date range?**  
You must include the actual results day dates in your selection
- **Is the portal locked?**
- The BSM parent portal will be locked all day for 24 hours the day before each Results day and reopen at the official 12.00 noon (Omani) release times
- **You have not received your user and password information for the exam board website/s?**  
email our [exams office](#) BEFORE 15 June 2025.
- **If you think some of your results are missing**
