

Creator Space | SHORT-FORM REDISTRIBUTION

Campaign Guidelines | Powered by creatorXchange

Campaign	Creator Space (creator.space)
Platforms	TikTok + Instagram Reels (short-form redistribution)
Format	Short-form video, using the provided footage only
CPM	\$1.00
Max per post	\$250

**Every post MUST tag @creator.space.community, put code SPACES-ACCESS-011026 (50% off) in the caption and the pinned first comment, and carry at least one change of your own. Add the Creator Space link to your bio before you post. No code, no approval. No exact reuploads.*

Campaign Goal

Push Creator Space, the AI-powered link in bio for creators, across TikTok and Instagram Reels by redistributing its short-form videos. Creator Space replaces the wall of links with a link in bio built around a creator's content. It shows their picks, tracks their commissions, lets them browse brand campaigns, and answers their audience's questions. Post the provided footage to pages that reach creators and aspiring creators who want to earn more from their content. Every post sends the viewer to the link in bio and the 50% off promo code.

What Creator Space Does

Pull your hooks and captions from these features. Stick to them when you talk about Creator Space.

- **Affiliate catalog:** tap to add any product and earn when your audience buys
- **Tracked links:** every link tracks back to the creator
- **Collab Hub:** browse paid, gifted, and affiliate campaigns and opt in. Brands choose who gets accepted

- **Product grids + video stories:** organized grids with video stories on one page
- **AI chat assistant:** the creator trains it on their voice, products, recommendations, and routines. It answers “where's that from?” and points straight to the product
- **One home:** products, looks, routines, videos, and links in one place

Content Ideas

Lead every post with a text hook in the first 3 seconds. Use one of the client's hooks below or write your own that makes a creator think “that's me.” Client example:

<https://www.instagram.com/reels/Dcy6axJAmr1/>

Hook ideas (text overlay)

- “Give your link-in-bio a personality”
- “Your link-in-bio is boring”
- “A stack of links is boring”
- “Your content deserves better than a stack of links”
- “Your link in bio should feel like your content”
- “Grids, videos, links. Your link in bio, built how you want it.”

Make Every Post Unique

TikTok and Instagram push down exact duplicates, and accounts that keep posting them risk a shadowban. Give every post at least one change of your own so it reads as new and gets a fair shot at views. Stack two or more changes when you can. Stay inside the edits the client allows:

- **Trim:** start on a different moment or cut the clip shorter. Keep the core message intact
- **Hook text:** add your own text hook in the first 3 seconds
- **Captions:** add captions or subtitles in your own style
- **Sound:** add a trending sound the last post didn't use, only when the video doesn't need its original audio
- **Caption copy:** rewrite the caption hook. Keep the CTA, the code and the tag
- **Cover:** pick a different cover frame

Watch-outs

- Never post the same edit twice, on one account or across your accounts
- Don't alter the Creator Space branding, logo or product visuals
- Don't add other brands, links or promo codes
- Don't trim away the core message of the clip

Budget Note

This campaign runs 30 days, October 6th, 2026 to November 6th, 2026. Views pay at \$1.00 per 1,000 verified views, with a \$1 minimum payout and a \$250 cap per post. A person reviews every post before it earns.

Campaign Rules

- Only post videos from the approved Creator.space Drive folder below. No outside footage and no TikTok or Instagram watermarks
- Every post carries at least one change of your own: trim, text hook, captions or sound. **Exact reuploads get rejected**
- Tag **@creator.space.community** in the caption of every TikTok and Instagram post, plus an on-screen tag when the platform allows
- Put promo code **SPACES-ACCESS-011026** in every caption and pin it as the first comment.
- Every caption CTA pushes the viewer to the link in bio and the promo code for 50% off
- Never promise brand deals. Collab Hub lets creators browse campaigns and opt in, and brands choose who gets accepted
- Use trending audio only when the video doesn't need its original audio
- Don't alter the Creator Space branding, logo or product visuals
- Promote Creator Space only. No other brands, links, tools or promo codes
- Don't add claims about Creator Space or any other platform that the videos don't make
- Don't promise earnings or income. No "get rich" language and no specific numbers
- Speak to creators. Keep captions short and creator-focused: "link in bio," "a stack of links," "where's that from," "built how you want it"
- No hashtags required
- Every post runs in English
- Real accounts only. No bought views, no bots, no engagement pods, no burner accounts
- Videos must be original and not stolen from other clippers
- Every rejected post gets a written reason you can read. Fix it and resubmit
- **ONLY CREATOR, CONTENT CREATION, SOCIAL MEDIA TIPS, INFLUENCER, UGC, AFFILIATE MARKETING, PAGES WITH A FOLLOWING, PERSONAL BRAND AND CREATOR ECONOMY PAGES ALLOWED,**

Caption Template

Use a client template or rewrite the hook however you like. Keep the CTA, the promo code and the tag.

[your hook] Get 50% off at the link in bio with code SPACES-ACCESS-011026 @creator.space.community

Client caption templates (add the tag to each)

- "Your bio link should be earning for you. Get 50% off at the link in bio with code SPACES-ACCESS-011026"
- "Turn your picks into income. 50% off at the link in bio + code SPACES-ACCESS-011026"

Links

PROMO CODE: SPACES-ACCESS-011026, good for 50% off (in every caption and pinned as the first comment)

CREATOR SPACE LINK (for your bio): <https://www.creator.space/link-in-bio>

TAG: @creator.space.community (caption, plus on-screen when the platform allows)

AUDIO: Trending audio, only when the video doesn't need its original audio

EXAMPLE POST: <https://www.instagram.com/reels/Dcy6axJAmr1/>

Assets

APPROVED FOLDER (Creator.space):

<https://drive.google.com/drive/folders/1gCs-yMDW2BTNtYnFX6-ADxAWqSAKxaZT?usp=sharing>

**Only post videos from this folder. Download every file from Drive. Never rip a video from TikTok or Instagram, and never post a file with another platform's watermark.*
